# A *warm* WELCOME

We pride ourselves in providing you with the expert help and advice you may need at all stages of buying a new home to enable you to bring that dream within your reach.

We actively seek regular feedback from our customers once they have moved into a Croudace home and use this information, alongside our own research into lifestyle changes, to constantly improve our designs.

Environmental aspects are considered both during the construction process and when new homes are in use and are of ever increasing importance. Our homes are designed both to reduce energy demands and minimise their impact on their surroundings.

Croudace recognise that the quality of the new homes we build is of vital importance to our customers. Our uncompromising commitment to quality extends to the first class service we offer customers when they have moved in and we have an experienced team dedicated to this task.

We are proud of our excellent ratings in independent customer satisfaction surveys which place us amongst the top echelon in the house building industry. Buying a new home is a big decision.

I hope you decide to buy a Croudace home and that you have many happy years living in it.

A stylized, handwritten signature in black ink, appearing to read 'Adrian Watts'.

The contents of this brochure have been produced in good faith. Architectural details and elevational treatments, including window or porch styles and positions, may vary from those shown; bay windows are plot specific.

All dimensions are approximate. All imagery, including trees and landscaping, are illustrative. Please check with one of our Sales Consultants for detailed information regarding your chosen home style and/or plot. We continually review the specification of our product and reserve the right to amend it. Although it is our intention that information given regarding garages, car ports and parking is truthful, these aspects are subject to change as Vyne Park progresses. This brochure does not form part of any contract or constitute an offer.

Date of Preparation November 2025.
